

Active

Made from a durable zinc alloy, the Active Carabiner Flash Drive features two USB connectors on the one drive. One end is the standard USB connector. The other end is a USB-C connector that can plug into compatible devices such as smartphones, tablets and digital cameras. The Active also features a spring-loaded clasp that can easily attach to key chains, neckstraps and rucksacks.

Capacities 2GB, 4GB, 8GB, 16GB, 32GB, 64GB, 128GB
